

COURSE CODE/TITLE:	CPE 212	SECTION:	CPE31S2
DATE PERFORMED:	Sep 10, 2026	DATE SUBMITTED:	Sep 10, 2026
NAME:	Loterte, Mark David M.	INSTRUCTOR:	Engr. Jimlord Quejado

ACTIVITY NO. 7 Managing Files and Creating Roles in Ansible

1. PROCEDURE OUTPUT

Task 1: Create a file and copy it to remote servers

1. Using the previous directory that was created in your previous laboratory, create a directory, and name it "files." Create a file inside that directory and name it "default_site.html." Edit the file and put basic HTML syntax. Any content will do, as long as it will display text later. Save the file and exit.

```
mdmlot@workstation: ~/CPE212_loterte/hoa7
GNU nano 7.2 files/default_site.html
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale="1.0">
  <title>My Web Server</title>
</head>
<body>
  <h1>Welcome to My Web Server</h1>
  <p>This Webpage was deployed using Ansible</p>
  <p>This file was copied from the local repository to the remote server.</p>
</body>
</html>
```

2. Edit the site.yml file and just below the web_servers play, create a new file to copy the default html file for site:

```

GNU nano 7.2          hoa7_site.yml
state: latest
update_cache: yes
when: ansible_distribution == "Ubuntu"

- name: install apache and php for CentOS servers
  tags: apache,httpd,centos
  dnf:
    name:
      - httpd
      - php
    state: latest
  when: ansible_distribution == "CentOS"

- name: start httpd (CentOS)
  tags: apache,centos,httpd
  service:
    name: httpd
    state: started
  when: ansible_distribution == "CentOS"

- name: copy default html file for site
  tags: apache,apache2,httpd
  copy:
    src: files/default_site.html
    dest: /var/www/html/index.html
    owner: root
    group: root
    mode: '0644'
  
```

3. Run the playbook site.yml. Describe the changes.

```

PLAY [web_servers] *****

TASK [Gathering Facts] *****
ok: [192.168.56.103]

TASK [install apache and php for ubuntu servers] *****
skipping: [192.168.56.103]

TASK [install apache and php for CentOS servers] *****
ok: [192.168.56.103]

TASK [start httpd (CentOS)] *****
changed: [192.168.56.103]

TASK [copy default html file for site] *****
changed: [192.168.56.103]

PLAY [db_servers] *****

PLAY [file_servers] *****

PLAY RECAP *****
192.168.56.103      : ok=6   changed=2    unreachable=0    failed=0    skipped=2    rescued=0    ignored=0
192.168.56.104      : ok=1   changed=0    unreachable=0    failed=1    skipped=1    rescued=0    ignored=0
192.168.56.106      : ok=1   changed=0    unreachable=0    failed=1    skipped=1    rescued=0    ignored=0
192.168.56.107      : ok=1   changed=0    unreachable=0    failed=1    skipped=1    rescued=0    ignored=0
  
```

The output of the added task was successful with the default HTML website being copied to the web directory. but only in the CentOS server, indicated by the “changed: [192.168.56.103]”. As of September 10, 2026, due to Error

403 Forbidden with the Ubuntu servers (meaning that it is down), The task was not successful within the Ubuntu servers due to the failed=1 flag.

Task 2: Download a file and extract it to a remote server

1. Edit the site.yml. Just before the web_servers play, create a new play:

2. ANSWERS TO SUPPLEMENTAL ACTIVITY

Copy and paste the questions from the lab and include your answers after.

3. ARTIFICIAL INTELLIGENCE (AI) USE DISCLOSURE STATEMENT

I hereby declare that artificial intelligence (AI) tools were used, if applicable, in the preparation of this academic work. The following indicates the nature and extent of AI assistance:

Tools Used:

Examples: ChatGPT, Microsoft Copilot, Grammarly, QuillBot, etc.

Purpose of Use:

Examples: grammar correction, idea generation, formatting, summarization, code assistance, explanation of concepts, etc.

Extent of Use:

Explain how AI was used and confirm that it did not replace original thinking, analysis, authorship, or completion of the required work.

By submitting this activity, I affirm that my use of AI complies with T.I.P.'s AI usage policy and does not exceed the permitted limits for similarity, automated content generation, or academic assistance.

I understand that any false, incomplete, or misleading disclosure may be subject to investigation in accordance with due process and may result in sanctions for violation of existing T.I.P. policies.

Lab activities, templates, and related instructional materials shall not be reuploaded, reproduced, distributed, or shared with external organizations or third parties without the prior express written permission of the Technological Institute of the Philippines.
